

TRAINING in EUROPEAN ASSET MANAGEMENT

Applications are invited for 10 PhD researcher positions as part of a Marie Curie Initial Training Network into infrastructure management.

TEAM: Training in European Asset Management is a Marie Curie ITN with PhD positions available in Dublin, Paris, Nottingham, Graz, Copenhagen and Lausanne. These positions are organised into 3 research themes:

- Pavement Service Life Optimisation
- Enhancing Structural Capacity
- Bridge Loading Impacts

A number of research projects are described under each theme, details of which can be found at: http://www.ucd.ie/team/research_projects.htm. 3 years funding is available for each project and all projects are expected to start in early 2010.

Early Stage Researchers funded under the Marie Curie Initial Training Networks scheme typically receive a salary of approximately €34,000 plus other travel and research benefits. Please note that Marie Curie eligibility criteria will apply and that these criteria require international mobility. The TEAM ITN welcomes applications from female candidates and will seek to ensure that an appropriate gender balance is achieved across the Network.

The deadline for applications is **January 29th 2010**. Application forms and further information are available at www.ucd.ie/team.
